

**PROFESSIONAL  
HEARING CENTER**  
*A Division of Ascentist Healthcare*  
**Vestibular & Balance Disorders Clinic**

### **Full-time Vestibular Audiologist Opportunity**

Professional Hearing Center invites applications for a self-motivated audiologist to join our vestibular team in Kansas City with high standards for patient care and a strong educational and clinical training background. This position would be focused on primarily vestibular evaluation, with additional diagnostic opportunities (audiometry, electrophysiology) as schedule allows.

[Professional Hearing Center](#) is a large, multi-specialty audiology practice in the Kansas City area which focuses on providing best audiologic care for patients with a variety of audiologic conditions. Our practice has specialties including vestibular, auditory processing disorder, tinnitus and more. PHC is a division of [Ascentist Healthcare](#) (which includes a variety of healthcare professionals including neuro-otology, ENT, and more).

#### Requirements:

- Candidates must possess a doctoral degree (AuD).
- For the position, must be eligible to obtain a Missouri and Kansas audiology license.

#### Responsibilities:

- Perform and interpret vestibular evaluations for all ages and may include vHIT, c and oVEMP tests, VNG, rotary chair tests, audiometry, impedance testing, and bedside evaluations.
- Perform appropriate canalith repositioning maneuvers and help direct treatment plans for physical therapy or other interventions.
- Perform electrophysiologic tests, including neurodiagnostic ABRs.
- Provide documentation/reports as well as appropriate billing for evaluations.
- Maintain diagnostic equipment, follow proper infection control policies and maintain disposable supplies.
- Professionally communicate patient findings and outcomes to physicians within and outside of Ascentist healthcare.
- Assist with marketing initiatives with new physician groups and referral partners.

While this position is predominantly directed for vestibular care, responsibilities of this role may also include diagnostic hearing tests for ENT clinic as the schedule necessitates.

If interested, please send a letter of application, including a description of clinical and educational experiences, a curriculum vitae, and 2 letters of recommendation to:

Liz Fuemmeler, AuD

Director, Vestibular Program
